

**SUNDAY 25<sup>TH</sup> APRIL 2010**

**Worldwide Community Focus  
to Heal the Earth.**

**30 minutes of silent focus at a time of your choosing.**

If we could see with our eyes the terrible wounds the earth has sustained  
as a consequence of humankind's ignorance, greed and hatred,  
we would surely be frightened into urgent action.

The wounds are *real*.

The need for action is *imperative*.

The Keepers of the Earth,  
workers with the Rainbow Warriors of the prophecies,  
have drawn close to ask aware beings to join them now  
in sending a co-ordinated wave of healing energy to Mother Earth  
to help halt the destruction and heal the damage.

Sunday 25<sup>th</sup> April 2010 will be the day for concerned individuals  
and groups around the world to gather together in spirit  
to focus the healing power of love deep into  
and around this living planet.

Allow your thoughts to be pure and free from distress and anger.

Hold the earth in a gentle embrace

and reassure her of your love and intention for change.

Open your heart and allow your love to flow across the earth like rivers of gold,  
touching every plant and creature on, within or above its surface.

Send your love to all humankind without judgement.

Send your love to the decision-makers of the world.

Be aware that you will be joining with many others on the earth  
as well as those in different dimensions  
who cannot ground the energy without you.

Be aware that this one action

in this tiny space of time

could save the planet.

But don't let it be the only action you take.

*Please circulate widely.*
